WHY PURSUE A GRADUATE CERTIFICATE IN HISTORY OF TECHNOLOGY, ENVIRONMENT, AND MEDICINE AT NJIT?
Discover the progression of technology and medicine as modern society evolved and adapted over the last few centuries. Explore this unique certificate in its integration of three relatively new historical sub-disciplines. Their rapid growth in recent years reflects greater awareness among professional historians and the general public of the significance of broader issues concerning technology, the environment, medicine, and health in contemporary life. As these issues loom larger in the consciousness of society, so does the need to learn more about their historical origins, causes, and patterns of development. The major field in the History of Technology, Environment and Medicine has been specially constructed to meet this growing need.

WHY STUDY AT NJIT?
One of the nation’s leading public technological universities, New Jersey Institute of Technology (NJIT) prepares students to be leaders in the technology-dependent economy of the 21st century. With an enrollment of almost 10,000 graduate and undergraduate students, NJIT offers small-campus intimacy with the resources of a major public research university.

HOW DOES THE GRADUATE CERTIFICATE PROGRAM WORK?
NJIT offers a new slate of Graduate Certificates, each in a specific area which is in a fast growing and employable profession. Each stand-alone credential is a milestone in its own right and can be a 12-credit springboard to a matching Master’s Degree program. The credential can be completed in as little as one year of part time study. Many can be studied in whole or in part online. The straightforward and rapid admissions process requires possession of an undergraduate degree with a satisfactory grade point average. A GRE or GMAT score is not a pre-requisite. For a complete list of available Graduate Certificates, please visit http://www.njit.edu/gradcert.
